

ABIOLA OLARONKE ONI

FULL STACK WEB DEVELOPER

Lagos, Nigeria | oniolaronke@gmail.com | 0703-427-2018 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with a background in IT Service Management and enterprise technical support. Skilled in building responsive, scalable web applications using React, PHP, Laravel, MySQL, JavaScript, HTML5, CSS3, Bootstrap, REST APIs, Git, Docker, and CI/CD workflows. Brings a strong understanding of business processes, customer needs, service delivery, and process improvement to software development. Focused on building secure, maintainable applications that improve efficiency, automate workflows, and deliver reliable user experiences.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: PHP, Laravel, REST APIs, Authentication & Authorization

Databases: MySQL, MongoDB, Relational Database Design, SQL Query Optimization

Tools & DevOps: Git, GitHub, Docker, GitHub Actions, CI/CD Pipelines, AWS

PROJECTS

INCIDENTRA – IT SERVICE MANAGEMENT (ITSM) PLATFORM | Personal Project |

Tech Stack: PHP, Laravel, MySQL, jQuery, AJAX

- Built a role-based ITSM platform supporting Admin, Agent, and Customer workflows with session-isolated access control.
- Implemented automated SLA calculation, ticket reply functionality, role-based dashboards, authentication, and authorization.

AURASTORE – E-COMMERCE STOREFRONT | Personal Project |

Tech Stack: React.js, Vite, REST APIs, Bootstrap

- Developed a responsive storefront that consumes a public REST API and manages dynamic product data.
- Implemented category-based filtering and responsive UI components for an improved shopping experience.

SERENESTAY – HOTEL MANAGEMENT SYSTEM | Personal Project |

Tech Stack: Laravel, MySQL, Blade, GitHub Actions

- Built a hotel management system with a centralized admin dashboard for managing room categories, inventory, and bookings.
- Configured GitHub Actions to support automated CI/CD workflows.

SOFTWARE DEVELOPMENT EXPERIENCE

FULL STACK WEB DEVELOPER | Moat Academy Graduate | March 2026

- Develop responsive web applications using React, PHP, Laravel, MySQL, JavaScript, HTML5, CSS3, and Bootstrap.
- Design and implement RESTful APIs to support frontend and backend application integration.
- Build secure authentication, authorization, user management, and role-based access control modules.
- Design relational database schemas and optimize SQL queries to support application performance.
- Perform debugging, code reviews, and application optimization to improve code quality and reliability.
- Manage source code using Git and GitHub and maintain CI/CD pipelines with GitHub Actions to automate deployment workflows.

ADDITIONAL PROFESSIONAL EXPERIENCE

SERVICE DELIVERY MANAGER | Infodata Professional Services | Aug 2024 – Jan 2026

- Managed enterprise client relationships and service delivery operations, aligning technology solutions with strategic business objectives.
- Led cross-functional teams to deliver technology solutions and translate client requirements into actionable delivery roadmaps.
